Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's Amendment dated 15 November 2004 has been carefully considered. Claims 1, 3, 4, 6-48 are pending. Applicant's amendment to the specification has been noted and objection to the drawing has been withdrawn. The amendment to claims 37 and 38 has also been noted and the rejection under 35 USC 112, second paragraph has been withdrawn. Applicant's arguments in regards to claims 25-36 have been considered and deemed persuasive. Rejection of the aforementioned claims has been withdrawn. Applicant's arguments in regards to claims 37-44 have been considered but are deemed non-persuasive.

In regards to claim 37, Applicant generally states that prior art reference Meginnis does not disclose turbine engine components. The Examiner respectfully disagrees. Since each layer, 11 and 14, is a part of the turbine blade, which is a component of the turbine engine then it is the position of the Examiner that they are also components of the turbine engine.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 37-41, 43 and 44 are rejected under 35 U.S.C. 102(b) as being anticipated by Meginnis (3,864,199) as far as they are definite. Meginnis discloses a turbine assembly comprising: a first component 14, a second component 11, the first and second components defining a cooling slot,

Art Unit: 3745

and at least one flow modifier 19/22 formed on a surface of one of the first and second components and extends in to the cooling slot. The flow modifier is either round 19 or polygonal 22 and forms a ridge 24 extending along the respective one of the first and second components. The at least one flow modifier is liners and have a curved component (See Figure 2).

CONCLUSION

Allowable Subject Matter

Claims 1,3,4,6-36, 42 and 45-48 are allowed.

Contact Information

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
